

Our secure platform delivers the engaging on-board experience your passengers deserve

Bluebox pioneered the delivery of IFE on the latest consumer technology, providing a compelling alternative to the status quo of embedded IFE systems.

Stand-Alone Portable IFE

Bluebox Ai delivers a high-quality and engaging passenger experience. Available on iPad Pro, iPad Air and iPad mini tablets – a platform to suit every cabin – it is the market leading portable IFE solution, with over 20,000 units deployed.

It provides an intuitive user interface, superb performance and robust reliability. Delighted users enjoy superior audio, retina display screens and a range of content that will engage them throughout their flight.
